

RailCamp Report for Board of Directors Meeting – August 27, 2021

RailCamp sessions, both East and Northwest, were cancelled for 2021. There remained too many Covid questions. We learned, rather late in the game, the University of Delaware was not having summer programs.. You cannot hold camp without some place to house campers.

I did not receive any questions or possible ways to save the program. I did receive emails saying they understood and were looking forward to 2022.

Both Tony White and John Cox are in contact with our partners keeping them advised of our situation and desire to continue the program. We do not anticipate any problems in 2022.

We will have to present an aggressive campaign to attract campers next year after two years off.
