

Share the Wealth Program

This report is written before the Advisory Council meeting in Springdale, so what I say here has not been voted on by the members.

I have made announcements at three separate Board meetings, sent material home with attendees asking them to share the information with their chapters and sent information to all AC members at the time of the meeting notice mailing for Fullerton. I have had no response from anyone, not a single comment pro or con and certainly no offers to help with the project. It is my intention to offer a motion to end any further work on the project. I have no doubt it will pass.
