

SHARE THE WEALTH PROGRAM

A program for people (individuals, chapters, museums) to share their knowledge of railroading, photographs, movies, memorabilia, records, maps, etc.

Much has been lost over the years. It's time to assess what you have and what will become of it in the future.

There will be a "Manager" of the program. All contacts will be by email.

Someone offers something as a gift, or wants to trade, or maybe sell the item. He/she emails the Manager. The Manager replies with an email address of someone to contact. It is then up to the two parties to complete the transaction.

The Manager does not appraise material, receive material, send items or is responsible for completing the transaction.

An article will appear in the NEWS. It might contain items being offered or requests for information or items. An email will be included for responding directly without contacting the Manager.

It doesn't get any easier. One very good reason to try this program is that there is no expense involved. We have nothing to lose.
